

# maestro\*

## project dispatch & mobile daily entries

Run your business in real time from anywhere

Connect your maestro\*ERP Project Dispatch module with maestro\*MOBILE for real-time project management, ensuring the right resources are available for the right job at the right time.

Schedule days, weeks, and months in advance, the maestro\*ERP Project Dispatch module allows for clear project planning, and managing underutilized resources and double-bookings.

The maestro\*MOBILE interface provides an on-the-spot solution for communication between the site and office. With the ability to view, add and modify project data, mobile users are provided with a handheld resource that allows them to send real-time updates to managers and administration.

### Various dispatch view settings

- Time scaling
- Hour, Day, Month
- Screen section organization

### Integration features

- Hours scheduled in dispatch can be imported directly to project costing, work orders and payroll.

## PROJECT DISPATCH FEATURES

## Run your business in real time from anywhere

### MOBILITY FEATURES

Real-time data exchange for quicker cost, purchasing and payroll processing. Send and receive live feedback about site employees, trades and equipment. Be empowered by access to data, planning and management tools; the key to time and cost savings.

#### ▪ Multi-platform Support

(smartphones, tablets, PCs, Android devices, iOS and web browsers)

#### ▪ Project Information

(map link, directions, contact information, weather, notes, percentage of completion, employee evaluations, material requisitions, project documents)

#### ▪ Time entry & validation

(individual or crew time entry by connecting hours to trade or activity codes & bringing validated hours into the payroll directly)

#### ▪ Resource Requisitions

#### ▪ Trade and contact management

#### ▪ Skills & Certificates

(on-site access to skills and certificates)

#### ▪ Photos and documents

(equipment photos, certification documents, packing slips, etc)

#### ▪ Recommendations

#### ▪ And much more...

### Manage everything from one place

Leveraging a common platform, every module in Maestro\*ERP captures data from various departments and operational groups in your organization, feeding it into a single database where real-time reporting shows exactly how your business is performing.

### All you need to make better business decisions

By constantly monitoring the company's financial vital signs, especially labour, material and equipment cost information, the finance department can track performance against financial goals and keep other departments and/or business units up-to-date. Whether you need an executive overview or specific job cost details, Maestro\*ERP allows for timely decision making to maximize job profitability and lower risk with control that would please even the most demanding financial executive.
